

Orders and Shipping

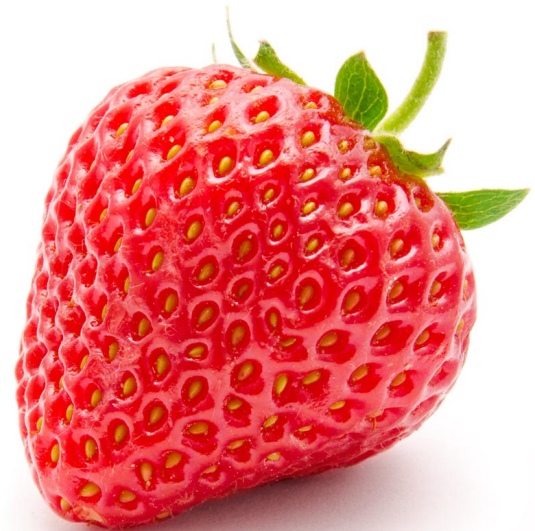

- Simple order entry.
- Quickly turn shipped orders into invoices.
- Flexible charges by customer, product, commodity, variety and more.
- Easy access to all order history for every customer.
- Fast truck check-in, including current inventory availability at check-in.
- Fully integrated with AgKnowledge Inventory and AgKnowledge Barcoded Pallet Tags.

Inventory

- Up-to-the-minute view of inventory, including On Hand, Available to Sell, and more.
- Flexible inventory by warehouse, product, lot, aging date and more.
- Estimated receiving by hour or day.
- Fully integrated with AgKnowledge Sales and AgKnowledge Barcoded Pallet Tags.

Warehouse Management

- Manage and track your inventory using handheld and forklift-mounted computers and tablets.
- Receive, cool, stage, ship and more in real-time.
- Track your performance metrics.
 - Receive to cool times
 - Cooling efficiency
 - Truck turnaround times
 - Orders waiting on product
 - Individual loader performance
 - Time at facility
 - Time in dock
- Complete pallet history: who did what, when they did it, etc.

Trading Partners

- AgKnowledge clients can easily exchange order, inventory and shipping information electronically and automatically with other AgKnowledge clients.
- Allows shippers and coolers to instantly be up-to-date with the same information.
- Eliminates "double-entry" into more than one system.

Truck Appointment Loading

- Schedule and track pick-up appointments.
- Suggested appointment times based on product availability.
- Monitor your capacity and schedule accordingly.

Purchase Order App

- Create and issue POs electronically to suppliers.
- POs can be created from sales orders.
- Track inventory by PO.

Pallet and Bin Weights

- Total receiving weights can be captured at time of receiving.
- Pallet or bin weights can be captured before and/or after cooling.
- Weights can be printed on Bill of Lading and other documents.
- Real-time monitoring of total weight being loaded.
- Errors or warnings issued if "Maximum weight to load" is exceeded.

Accounts Receivable

- Credit memos automatically offset invoices.
- Easy cash posting for full and partial payments and write-offs.
- View customer accounts with up-to-the-minute aging.
- Unlimited Ship-To accounts for every Sold-To customer.
- Fully integrated with AgKnowledge Sales and AgKnowledge General Ledger.
- Email invoices and statements automatically.

Accounts Payable

- Easy invoice entry and posting.
- Flexible payment selection by date or individual invoice, even manual checks.
- View vendor accounts with up-to-the-minute aging.
- Recurring payments.
- Fully integrated with AgKnowledge General Ledger.

Payroll

- Easy entry by employee or crew.
- Salary, hourly, piece rate.
- Infinite user-defined pay types like Regular, Overtime and Vacation pay.
- Flexible deduction set-up with automatic interface to AgKnowledge Accounts Payable.
- Fully integrated with AgKnowledge General Ledger.

General Ledger

- Flexible Chart of Accounts with user-defined segments.
- Automatically tracks Cash and Accrual basis without extra entries.
- Easy-to-use Report Writer.
- Deferred revenue and expense for automatic "Crops in Ground" asset tracking.
- Account allocation.
- Fully integrated with all AgKnowledge applications.

Common Features

- Multi-company, multi-location.
- Tabs custom by user.

Commercial Cooler

- Keep each shipper's inventory separate.
- Ability to see all orders for all shippers.
- Easily invoice your shippers based on receiving or shipping.
- Flexible shipper billing rates.

Produce Traceability

- Automatically or manually assign your GTIN codes.
- Generate your GTIN labels in the field, preprint based on estimates, or automatically at time of receiving.
- GTIN codes can optionally be printed on shipping documents like the Bill of Lading or Passing.
